

Startup Funding & Performance Analytics Dashboard (Power BI Project)

---A project on power By- Rajeev Kumar---

This dataset intentionally contains:

- Missing values (NULL, blank cells)
- Inconsistent date formats (YYYY-MM-DD, DD/MM/YYYY, MM-DD-YYYY)
- Mixed data types (numbers stored as text)
- "N/A", "Not Disclosed", "unknown"
- Funding amounts with "USD" text
- Null funding stages

PROJECT DOCUMENTATION

Project Title

Startup Funding & Performance Analytics Dashboard (Power BI Project)

Project Objective

To analyze startup ecosystem data and generate business insights by:

- Cleaning unstructured and inconsistent data
- Transforming raw data into analytical format
- Creating KPIs and dashboards
- Identifying funding trends
- Analyzing startup growth patterns

Dataset Description

File Name: startup_unclean_20000_rows.csv

Columns:

- Startup_Name
- Industry

- City
- Funding_Stage
- Funding_Amount
- Founded_Date
- Employee_Count
- Revenue

Dataset Size: 20,000 Rows

Data Type: Unclean / Raw

STEP 1 - Import Data

1. Open Power BI Desktop
2. Click Get Data
3. Select Text/CSV
4. Load the file
5. Click Transform Data

STEP 2 - Data Cleaning (Power Query)

Students must:

- Remove blank rows
- Replace "N/A", "Not Disclosed", "unknown" with NULL
- Remove "USD" text from Funding_Amount
- Convert Funding_Amount to numeric
- Convert Employee_Count to whole number
- Standardize date format in Founded_Date
- Change data types properly
- Handle missing values

STEP 3 - Create New Columns

- Funding Year (from Founded_Date)
- Startup Age
- Revenue per Employee
- Funding Category (Low / Medium / High)

STEP 4 - Create KPIs

- Total Startups
- Total Funding
- Average Funding
- Total Revenue
- Average Employees
- Industry-wise Funding

STEP 5 - Create Visualizations

Dashboard must include:

1. KPI Cards
2. Funding by Industry (Bar Chart)
3. Funding by City (Map or Bar)
4. Funding Stage Distribution (Donut Chart)
5. Revenue vs Funding (Scatter Plot)
6. Year-wise Funding Trend (Line Chart)
7. Top 10 Funded Startups (Table)

STEP 6 - Advanced Analysis

- Identify top performing industries
- Identify high-growth cities
- Analyze correlation between funding and revenue
- Compare funding stage vs revenue

- Detect data anomalies

Resume Description

Startup Funding Analytics Dashboard – Power BI

- Cleaned and transformed 20,000-row unstructured dataset
- Handled missing values and inconsistent formats
- Built interactive dashboard with KPIs and trend analysis
- Performed funding and revenue correlation analysis
- Generated actionable business insights from startup data
